“Cleaning up properties and balance sheets!”

Real-estate owned properties can be a challenge, and not just for the person tending the financial books. Foreclosed-on sites are sometimes in a state of partial or extreme disrepair, often due to intentional damage caused by the exiting owners. The prospect of these properties sprouting a “For Sale” sign might seem far off.

Mobile REO Property Services is the solution. We do the “dirty work” – often literally – of preparing a property for showing. Our services restore the curb appeal that draws interested buyers. And, we usually get to work within 48 hours of written approval.
